

The Players' Union and the GBCA sent a new letter to the Federation on the answer that the Federation published to their primal letter, asking for information and dialogue.

The letter:

"On your answer to the letter that the Players' Union and the GBCA had sent you, we would like to express our question your denial to give explanation or a reply to our demand for dialogue. The letter of the two Associations didn't ask you anything more than hold a conversation, which is mandatory for the salvation of the problems that hold back Greek Basketball.

Subjects related to the A1 and the A2 league, are important for the players and the coaches. Moreover other issues need to be looked at from all the interested parties.

The Players' Union and the GBCA remain in the same position, demanding dialogue between the sides and the arrangement of a meeting".
