

## A successful surgery for Tanjevic

Friday, 26 March 2010 10:16

---

Bogdan Tanjevic underwent a long surgery, in order to fight the critical health problem he is facing and made him leave the benches. After an operation of 5.5 hours the doctors said that everything went normal and the only thing they have to wait is for the body's reaction.

Side by side with the 63years-old coach was his family, the president of the Turkish Federation, Tourgay Demirel and the captain of Fenerbahce/Ulker, Omer Onan.
