

Great demand has been shown for DVDs from the Clinics that were held by the Greek Basketball Coaches Association. Many coaches showed interest and participated in the educational efforts of the GBCA, which provides the very interesting lecturers of great Greek and Foreign coaches, who left quite an impression over the 10th International Clinic for Young Players in Veroia, the 10th International Clinic for Young Players in Patras and the International Clinic "Athens 2008".

The first DVD ("Veroia 2008"), that includes the lectures of Steve Spencer, Giannis Sfairopoulos and the head coach of Joventut Badalona, Sito Alonso, has become turn away. The Spaniard coach, who has been working all these years with Ricky Rubio and Rudy Fernandez (who shined during the Olympic Games), gained the crowd in Veroia with his excellent and very original lectures revolving the "dribble" and "avoiding resting on the court", showing a different approach to the way a player can control the ball and play defense.

The DVD from the 10th International Clinic for Young Players in Patras is considered equally interesting. In this one any coach can find the lectures of Kostas Petropoulos, Giannis Christopoulos, Steve Spencer and the Italian assistant coach of Siena, Luca Banchi.

Turn away DVDs

Tuesday, 26 August 2008 06:12

There has been noted a special demand for the International Clinic "Athens 2008", which includes the lectures of Oktay Mahmuti, Neven Spahija, Eric Musselman and Mike Dunlap. Already the first "wave" of DVDs have been given away and the Association got more, continuing the educational effort for the improvement of the Greek Coaches.

Anyone that is interested in those DVDs can obtain them in the Association (Sigrou Av. 230, Athens). For more details they can refer to (003) 210-9532600
